

AIR HANDLERS FOR EVERY JOB

There's a RedZone air handler perfect for either retrofit or new home construction - low, mid and high velocity. Compact and lightweight, these units come with a host of ducting options, making installation simple and easy. All use super-efficient ECM motors plus some of our models are P.9-11 certified.

For year round comfort, RedZone air handlers accept most AC evaporator coils. All are manufactured here, in North America - designed to satisfy our harshest climate conditions.

Built to last and made to work anywhere!
